

competitive future acquisitions, together with the cost to the Government, if any, of acquiring such technical data and the right to use such data.

(2) Proposals for the qualification or development of multiple sources of supply for competitive future acquisitions.

(c) In determining whether to apply paragraphs (a) and (b) above, planners shall consider the purposes for which the system is being acquired and the technology necessary to meet the system's required capabilities. If such proposals are required, the contracting officer shall consider them in evaluating competing offers. In noncompetitive awards, the factors in paragraphs (a) and (b) above, may be considered by the contracting officer as objectives in negotiating the contract.

Subpart 7.2—Planning for the Purchase of Supplies in Economic Quantities

SOURCE: 50 FR 35475, Aug. 30, 1985, unless otherwise noted.

7.200 Scope of subpart.

This subpart prescribes policies and procedures for gathering information from offerors to assist the Government in planning the most advantageous quantities in which supplies should be purchased.

7.201 [Reserved]

7.202 Policy.

(a) Agencies are required by 10 U.S.C. 2384(a) and 41 U.S.C. 253(f) to procure supplies in such quantity as (1) will result in the total cost and unit cost most advantageous to the Government, where practicable, and (2) does not exceed the quantity reasonably expected to be required by the agency.

(b) Each solicitation for a contract for supplies is required, if practicable, to include a provision inviting each offeror responding to the solicitation (1) to state an opinion on whether the quantity of the supplies proposed to be acquired is economically advantageous to the Government, and (2) if applica-

ble, to recommend a quantity or quantities which would be more economically advantageous to the Government. Each such recommendation is required to include a quotation of the total price and the unit price for supplies procured in each recommended quantity.

7.203 Solicitation provision.

Contracting officers shall insert the provision at 52.207-4, Economic Purchase Quantity—Supplies, in solicitations for supplies. The provision need not be inserted if the solicitation is for a contract under the General Services Administration's multiple award schedule contract program, or if the contracting officer determines that (a) the Government already has the data, (b) the data is otherwise readily available, or (c) it is impracticable for the Government to vary its future requirements.

[52 FR 30076, Aug. 12, 1987]

7.204 Responsibilities of contracting officers.

(a) Contracting officers are responsible for transmitting offeror responses to the solicitation provision at 52.207-4 to appropriate inventory management/requirements development activities in accordance with agency procedures. The economic purchase quantity data so obtained are intended to assist inventory managers in establishing and evaluating economic order quantities for supplies under their cognizance.

(b) In recognition of the fact that economic purchase quantity data furnished by offerors are only one of many data inputs required for determining the most economical order quantities, contracting officers should generally take no action to revise quantities to be acquired in connection with the instant procurement. However, if a significant price variation is evident from offeror responses, and the potential for significant savings is apparent, the contracting officer shall consult with the cognizant inventory manager or requirements development activity before proceeding with an award or negotiations. If this consultation discloses

that the Government should be ordering an item of supply in different quantities and the inventory manager/requirements development activity concurs, the solicitation for the item should be amended or canceled and a new requisition should be obtained.

Subpart 7.3—Contractor Versus Government Performance

7.300 Scope of subpart.

This subpart prescribes policies and procedures for use in acquisitions of commercial or industrial products and services subject to (a) OMB Circular No. A-76 (Revised) (the Circular), Performance of Commercial Activities, and (b) the Supplement to the Circular.

[57 FR 60575, Dec. 21, 1992]

7.301 Policy.

The Circular provides that it is the policy of the Government to (a) rely generally on private commercial sources for supplies and services, if certain criteria are met, while recognizing that some functions are inherently Governmental and must be performed by Government personnel, and (b) give appropriate consideration to relative cost in deciding between Government performance and performance under contract. In comparing the costs of Government and contractor performance, the Circular provides that agencies shall base the contractor's cost of performance on firm offers.

7.302 General.

The Circular and the Supplement—

(a) Prescribe the overall policies and detailed procedures required of all agencies in making cost comparisons between contractor and Government performance. In making cost comparisons, agencies shall—

(1) Prepare an estimate of the cost of Government performance based on the same work statement and level of performance as apply to offerors; and

(2) Compare the total cost of Government performance to the total cost of contracting with the potentially successful offeror.

(b) Provide that solicitations and synopses of the solicitations issued to

obtain offers for comparison purposes shall state that they will not result in a contract if Government performance is determined to be more advantageous (see the solicitation provisions at 52.207-1 and 52.207-2);

(c) Provide that each cost comparison shall be reviewed by an activity independent of the activity which prepared the cost analysis to ensure conformance with the instructions in the Supplement; and

(d) Provide that, ordinarily, agencies should not incur the delay and expense of conducting cost comparison studies when the full-time equivalent Government employees involved are fewer than those specified by law, the Circular, and implementing agency guidance. Cost comparisons may be conducted in these instances if there is reason to believe that commercial prices are unreasonable.

[50 FR 35475, Aug. 30, 1985, as amended at 53 FR 17856, May 18, 1988; 55 FR 25526, June 21, 1990; 57 FR 60575, Dec. 21, 1992]

7.303 Determining availability of private commercial sources.

(a) During acquisition planning reviews, contracting officers shall assist in identifying private commercial sources.

(b) In making all reasonable efforts to identify such sources, the contracting officer shall assist in—

(1) Synopsizing the requirement in the Commercial Business Daily until a reasonable number of potential sources are identified. If necessary, synopsis shall be submitted up to three times in a 90-day period with a minimum of 30 days between notices (but, when necessary to meet an urgent requirement, this notification may be limited to a total of two notices in a 30-day period with a minimum of 15 days between them).

(2) Requesting assistance from the Small Business Administration, the Department of Commerce, and the General Services Administration.
